

FIVE IMPORTANT REASONS TO CREATE YOUR TRUST PRE-REVALUATION

1) PRIVACY AND ANONYMITY: By establishing your Trust pre-RV, in addition to protecting your privacy and anonymity, you will make it extremely difficult, if not impossible for anyone to successfully sue you. And frivolous lawsuits cannot succeed.

2) AVOID IRS SCRUTINY: By establishing your Trust pre RV, you will significantly avoid the possibility of an IRS Audit. And any such Trust Audit would necessary be confined to the year in which the RV occurs, as there is no taxable event prior to the RV.

3) AVOID GIFT TAXES WITH PRE-RV GIFTING: By gifting pre-RV currencies to friends and family through your Trust, you will avoid any Federal Gift Tax, and retain control of the funds post RV. This may be important if your beneficiaries are children or invalids.

4) AVOID PROBATE AND THE FEDERAL ESTATE TAX: Your trust will allow your estate to bypass the cost and delay of Probate, making any inheritance immediately available to your heirs. It will also allow you to avoid the Federal Estate Tax, which can be as high a 55% of your estate, in excess of 5 million dollars.

5) PREEMPTIVE ASSET PROTECTION: By placing you pre-RV currencies in Trust, only the "value" of those currencies at the time of the transfer would ever be subject to any Civil Suit. And by placing each individual asset you control in its own separate Sub Trust, you will be able to limit any potential loss from any Civil Suit ever brought against you.
